## BOOM WATSON FOR GOVERNOR

Friends of "Our Jim" Confident That He Will be Next Nominee.

Louis Ludlow of the Indianapolis Star, is Loud in Praise of Rushville Man.

Louis Ludlow, the Washington correspondent of the Indianapolis Star, now comes forth with the announcement that Congressman Watson's friends will boom him for Governor in 1908. He says.

"Friends of Congressman James E. Watson are framing up a gubernatorial boom for him. This significant fact was disclosed by Charles E. Shiveley, of Richmond, one of Mr. Watson's constituents and admirers, who has just been here in connection with the order of Knights of Pythias of which he is supreme chancellor.

"If 'Jim' Watson keeps his health, he will be the next Governor of Indiana," said Mr. Shiveley. "His friends, among whom I am glad to be considered one, are determined that his name shall be presented to the State convention and we have no doubt whatever as to the outcome. Several good men are mentioned for the governorship, but none of them has as wide an acquaintance, or is as popular as is Mr. Watson. There is no part of Indiana in which our candidate is not known and to know him is to like him. In the lower House of Congress he takes high rank. He is an influential and well informed member of the Committee on Ways and Means, which is the most important committee of that body. He has the most complete confidence of the leaders of the nation, who frequently assign him to tasks of the highest trust and responsibility. He is a clean man, whose standard of citizenship measures up to the highest ideals governing the office of the chief executive of the commonwealth."

"Mr. Watson has not given any indication, either by words or signs, that he intends to run for Governor, but Mr. Shiveley's statement may be considered as a sure forecast that his friends are going to put him in the race. He was mentioned very prominently for United States Senator last year, but as frequently happens he sacrificed his personal interests for those of a friend. In this case the friend was James A. Hemenway. The close relations between Watson and Hemenway—the 'two Jims' as they are often called—is a theme for much comment. There is nothing within the range of possibility that either would not do for the other.

"If the gubernatorial toga ever should fall on Mr. Watson's shoulders there would be a man in the executive chair who would measure up to all of the traditional oratorical requirements of the occupant of the high office. Uncle Joe Cannon calls him the most ready impromptu speaker in public life, and Uncle Joe had an opportunity to judge, for Watson was the companion of the Speaker on his 'swing around the circle' in last year's campaign.

"The literary side of Mr. Watson's character is not generally understood. No man is fonder of books than he. He roams at large in all the fields of literature and his library at Rushville is very complete. The information which he has gained from any sources, coupled with his natural gift of oratory, enables him to speak creditably and advisedly on almost any public question. Whenever the newspapers announce that he is going to deliver an address in the House the galleries fill up and he never fails to make a hit.

Governor Whitcomb, of Indiana, was a fiddler. Jim Watson is a singer, and on the last day of every session of Congress when hilarity prevails in the House, he leads in singing patriotic songs. It is one of Speaker Cannon's chief delights to listen to him sing old-fashioned Methodist hymns.

"Mr. Watson's frankness is a leading trait of his character. If he should be nominated for Governor no one would need to 'sound' him on the question of whether or not, if elected,

he would return W. S. Taylor and Charles Finley to Kentucky for trial. He is already on record to the effect that he would never think of doing so, as he is certain that neither of those gentlemen would live to get beyond 100 feet over the Kentucky line. "To his family Mr. Watson is all that is lovely. His two boys are the apple of his eye and he can write best and think most clearly when they are pinching his nose or pulling his flowing locks. He insists that his family shall enjoy all of the pleasures that come to him and if goes to the Philippines the coming summer Mrs. Watson and the boys will accompany him."

## MOVEMENT TO DESTROY SALOONS

Anti Saloon League is Planning to Start a Vigorous Crusade.

A crusade to wipe out all saloons in Indiana is being planned by the Anti-Saloon League.

"It is possible," said W. C. Heit, superintendent of the organization, "that within two years seven-tenths of the State will be 'dry.'"

Following the amendment in the Nicholson law the league has divided the State into five districts. The township remonstrance feature will be given the lime light and the State is expected to break out in "dry" spots which will spread like a contagion until the ultimate aim of the league, a "dry" State, has been attained. Heit is superintendent of the Indianapolis district, which comprises 27 counties. T. S. Sumaker, is superintendent of the South Bend district and P. H. Faulk has charge of the work in the Terre Haute district. Superintendents for the Ft. Wayne and Evansville districts have not been appointed.

## IS MISSING

Insurance Agent of Connersville Said to be Short in His Account.

A Mr. Kendall, who for upward of a year has held the position of assistant superintendent of the Prudential Insurance company, of Connersville, has disappeared and no one knows where. An investigation of his accounts discloses the facts that he is about \$600 short, besides which he is charged with forging several notes, using the names of several prominent citizens of Connersville, among which is that of Dr. L. D. Dillman, the company's examining physician at that place.

One of his methods was to employ new men and inform them that the company paid nothing during the first month and after this put them off by telling them that no remittance had yet been made to pay them. Several business men are very anxious to have bills settled that this party has contracted, but it seems that no one knows where to locate him. The house in which he lived was left with all the furniture intact and nothing disturbed.

## SCHOOL BURNED

The old Gordon school house, situated about two miles north of Shelbyville, burned to the ground Saturday morning. The cause of the fire is unknown, but as the building was unoccupied, it is supposed that tramps caused the fire by camping out in the building. The building was worth \$700 and was insured for \$600.

Miss Laura Perkins, of Beloit, Wis., has sent a cold chill down the spine of many a fellow-taxpayer in that city. While many are asking rebates for one cause or another, she has written the city clerk stating that she observes that the assessor failed to tax her on a few hundreds dollars she has in the saving bank and that if an error is made she desires to pay her full share of taxes.

## FARM RESIDENCE DAMAGED BY FIRE

Home of John W. Gibbs, Near Glenwood, the Scene of a Small Blaze.

(Connersville News.)

Fire, that probably originated from a defective flue, damaged the residence of John W. Gibbs, of near Glenwood, Friday afternoon. It was shortly after the noon hour that the blaze was discovered and as Mr. Gibbs and son were away from home at the time it devolved upon the women folks to quench the flames if possible. The house is a two story frame dwelling and as the fire originated in the garret it was fought with difficulty. Miss Edith, eldest daughter of the house, did splendid service and prevented the flames from spreading until a large number of neighbors who had been notified by telephone, appeared upon the scene and in a short time had the flames under control.

It is the general opinion of the people of the vicinity that if the roof had not been snow-soaked the house would have been totally destroyed. The damage will not exceed \$300.

### PRICES IMPROVED.

Advance in Apples is Noted on Barrel Lot—Cause is Shown.

The apple market is improving and prices are 10c to 25c a barrel higher for nearly all grades. It is apparent that the heavy consumption of apples resulting from the extremely low prices that ruled for last year's crop has reduced stocks to a point below what they were at this time last year and effectually disposed of the large surplus. In addition to this local dealers say that the advances made in the last three months in this market have not been enough to pay for storage charges. Further advances are expected in the next few weeks.

## MONEY FOR SOLDIERS

Rushville Boys Will Probably Get Two Months' Pay Due Them.

According to a Washington despatch the soldiers of ex-Governor Durbin's regiment (the one-hundred-and-sixty-first Indiana) and the two companies of colored troops which Indiana sent to the Spanish-American war will get about \$50,000 if an amendment which Senator Beveridge has proposed to the general deficiency bill becomes a law. The amendment is pending in the Senate and will be considered in the Senate Appropriation Committee when the general deficiency bill comes over from the House. If the Senate adopts it and it goes to the conference it undoubtedly will remain in the bill. Mr. Hemenway will be chairman of the House conferees. The claim is for two months' pay, which was overlooked in settlement.

## IMPORTANT DECISIONS

Have Been Made on the Law Relating to Mortgage Exemptions

The law passed several years ago by the Indiana Legislature, whereby the amount of a mortgage can be deducted from one's assessment, not exceeding one-half the assessed value and not exceeding \$700 is pronounced by all a good one and a great advantage to the poor people who are attempting to own property and homes of their own.

There are several points in the law, however, which after its passage were questionable, but have since been decided by the attorney general or the supreme court. We give a few of them here to guard our readers against any mistake that might cause them to lose the amount of money they would save by such exemption. They are as follows:

The affidavit for such exemption must be made after March first and before May first.

The assessor has nothing whatever to do with this exemption and is not authorized to swear anyone to an affidavit for such exemption.

There cannot be an exemption of more than \$700 to any one person, no matter how many mortgages or how much property.

Firms, corporations and partnerships are not entitled to any exemption.

Improvements on real estate are part of the real estate if of a permanent nature.

No more than one-half the valuation as shown by the tax duplicate will be deducted in any case.

One joint owner or one heir cannot make an affidavit for another.

A guardian can make an affidavit for his ward.

A husband and wife may each claim exemption on separate properties.

## A BATTLE IS RAGING

Probably Decisive Conflict Now in Progress on the Hun River.

Thus Far, the Tide of Battle Has Been in Favor of Mikado's Doughty Soldiers.

St. Petersburg, Feb. 27.—An action of no mean proportions is in progress on the Russian left flank. The advantage thus far is on the side of the Japanese, though at heavy cost. From advices from the front it is difficult to say how severe the losses have been or how decisive the reverse, and whether the Japanese are likely to attempt to drive in the Russian left much further. General Kuropatkin evidently has been trying to establish his left flank far in advance, to command the crossings of the Taitse river, the operation being a counterpart of General Gripenberg's movement on the right flank to secure the fords of the Hun river preparatory to the breaking up of the ice in the spring. The scene of the operations is fifty miles southeast of Mukden, beyond Da pass, an important defile commanding the road to Fushun. Both armies occupying apparently impregnable positions on the centers, General Kuropatkin evidently planned to begin widely sweeping operations on both flanks, but the Japanese countered hard.

Dispatches from the front indicate that the weather is fine and favorable for operations, and that all is quiet on the Russian right wing. According to a Vladivostok dispatch the entrance to that harbor is open, and the squadron, which is seaworthy, is apparently taking no risks, but is saving its strength for co-operation with Vice Admiral Rojestvensky's squadron.

### Percentage of Killed is Large.

St. Petersburg, Feb. 27.—General Kuropatkin has telegraphed the emperor under date of Feb. 25 as follows: "At 5 o'clock this morning the enemy occupied Tsinkhetchen. Exact reports of our yesterday's losses have not yet been received. There are 12 officers and about 300 men wounded in the hospital at Sanlunyu. The percentage of killed is very large. The commander of the detachment reports acts of bravery by many detached bodies of troops." General Kuropatkin instances many cases of close fighting and bayonet charges.

## SEEKING A LOCATION

An Opportunity Offered For Rushville to Secure a New Industry.

A Representative of the Republican met a gentleman by the name of A. J. Scott, of Indianapolis, this morning, who is seeking a location for a Traction and Steam Railway Manufacturing company, which is now being organized at Indianapolis with a capital of \$50,000. He was requested to call at Rushville and investigate the situation here, as owing to the location of the power house of the I. & C. Traction company here and the numerous railroads which run through the town, it would make a most excellent location for such a manufactory. The gentleman has promised to make the town a visit and see what can be done in the matter. He stated that the parties back of the enterprise were well known business men of Indianapolis.

We would advise our business men to examine into the matter and if found worthy of support that they make every effort in their power to land such a manufactory in this city.

### NEW POTATOES

Are Now on the Market—Came all the Way From Sunny Cuba.

The first new potatoes of the season are now on sale in Indiana markets. These are from Cuba, and considering the time of the year they are unusually good. The receipts of green vegetables from Southern Florida, Louisiana and Texas are larger and the commission houses have an attractive display compared with their offerings for the last two weeks. Fresh lettuce, new beets, carrots, cauliflower and rubarb are all plentiful.

While Cuban potatoes are by no means a new thing in the United States, comparatively few shipments have found their way to Indiana. More early vegetables from Cuba will be shipped in the future, however, on account of the larger production and better shipping facilities to Indianapolis and other Indiana cities.

## THE LAST ONE OF THE SERIES

Rev. T. H. McConnell Concluded His Series of Lectures Last Night.

Rev. T. H. McConnell, pastor of the Presbyterian church, Sunday night gave the last of his series of eight lectures on his trip to the Holy Land to another large audience which filled both the church auditorium and Sunday school room.

The subject was "Jordan and Jericho" and he handled it with masterly skill. He opened with a description of the river Jordan, its swift muddy current and its long winding course. The views throughout the lecture were good, and they were well explained. Those present pronounced the lecture as exceedingly interesting and entertaining.

The series of lectures, delivered by Rev. McConnell, while they have hardly been a financial success, have tended to bring about a better understanding of biblical history, and have brought one face to face with the very spots where these things occurred. In all, some five hundred or more views have been shown. Rev. McConnell will now condense the lectures into two, which he will deliver at a later date.

## A GREAT REVIVAL

The City of Louisville Touched as Never Before in Her History.

Louisville, Ky., Feb. 27.—Meetings in twenty-four churches, theaters and halls Sunday concluded the main effort of one of the most remarkable religious revivals seen in America during the past fifty years. During the two weeks just closed 6,500 persons confessed Christianity. As about 65,000 of Louisville's 220,000 population had no church affiliation before the revival began, the two weeks work resulted in the conversion of 10 per cent of the churchless. The revival has been systematically conducted, meetings being held at all geographically advantageous points, theaters and halls in the business portion of the city being used. Eighteen visiting evangelists took part in the work, some of whom will remain for a month longer to follow up the work. Fifteen hundred persons were yesterday added to the 5,000 already converted, this being the final decision day.

### CANNOT GET AWAY

Indiana Republican Leaders Will Be  
Kept From Inauguration.

Indianapolis, Ind., February 27.—Not many Republican leaders in Indiana are going to Washington to witness the inauguration of Vice-President-elect Fairbanks. United States District Attorney J. B. Keating, his first lieutenant, can not get away from here because of sickness in his family. Chairman Goodrich and H. C. Starr, head of the executive committee, have just returned from Washington and probably will not return for the inaugural ceremonies. Governor Hanly will not be able to get away because of the press of business attendant upon the close of the legislature and most of the state officials will be held here by the same reason. A special train for Eleventh district politicians will be made up at Marion next Thursday and one company of the Indiana National Guard will represent that body but there will be no special parade of Indiana men. Vice-President-elect Fairbanks and family will return to Indianapolis as soon after the inauguration as possible to spend the summer here.

Governor Hanly will appoint the railway commission shortly after the adjournment of the legislature. As the positions pay \$4,000 a year there is a host of applicants. It may be stated here, however, that the applicants who want to be favorably considered had better not try to bring pressure on the governor. He is not the kind of a man to stand for that sort of thing. He will make up the commission according to his own best judgment and not to the wishes of the politicians or to those who feel they have some particular influence with him. It is probable that he has already made up his mind in the matter. It is being predicted that he will appoint men of high character and that the personnel of the commission will be a complete surprise to the men who are figuring on landing positions. The bill now contains no provisions as to how the commission shall be constituted which is especially pleasing to the governor as it leaves him untrammelled in making the appointments.

It is predicted that the Moore amendment to the Nicholson law permitting the filing of a remonstrance against the entire retail business of a ward or township will cost the liquor interests several hundred thousand dollars during the ensuing year. The anti-saloon people are so enthusiastic that they are confident of being able to annihilate the saloon business within a few years. The brewers will probably suffer heavily, as they own the fixtures in hundreds of saloons. The status of their business seems to be more uncertain than it has been since the enactment of the Nicholson law, and the decision of the supreme court upholding the blanket remonstrance clause under which hundreds of saloons have been wiped out by the crusaders. It may be that the temperance people will find that the Moore amendment will bring about such a perfect organization among the saloon men that it will be more difficult to get a remonstrance than it is now, but the anti-saloon leaders are preparing for a more vigorous crusade than ever before.

It was thought that an effort would be made to kill the codification commission's municipal code which provides for an extension of the terms of the present officials until 1908. The principal objection to this is among the Indianapolis machine politicians who are against Mayor Holtzman getting practically another whole term without fighting for it. The big majority in the county here last fall persuaded the Republican leaders that the Democrats will not stand much of a show in a municipal election here this year, so they don't want to be cheated of an opportunity of regaining control. It is believed, however, that the code will become a law practically as it now stands. The bill was ready for third reading when the senate convened this morning.

### Woman Started a Riot.

Greensburg, Pa., Feb. 27.—Anna Onnaffrey was the central figure in a bloody battle at the Strickler works of the Veteran Coal company in Mt. Pleasant township Saturday night in which two men were killed and six others stabbed, shot or slashed with knives. Anna Onnaffrey's refusal to dance with George Lukes, an unbidden guest at a wedding celebration, started a riot.

## ANTI-TRUST BILL

Its Passage In the House  
Aroused a Strong  
Lobby.

### AN ORGANIZED EFFORT

Will Be Made to Prevent the Passage  
of This Drastic Measure In the  
Upper House.

Legislative Reapportionment Bill  
Has Been Favorably Reported  
In the House.

Indianapolis, Ind., Feb. 27.—The house committee on legislative reapportionment today reported for passage the senate bill which was handed down Saturday by Speaker Cantwell. The Republicans, as a matter of course, reported the bill for passage as the reapportionment plan is of their own making. The Democrats made a minority report but the Republicans can pass the bill whenever they see fit as they have over two thirds of the membership. It will be possible for them to suspend the rules and put the bill through at pleasure even if the Democrats try to duck. It is not within the power of the Democrats to obstruct the passage of the bill very long.

It is probable the bill will be read for a second time tomorrow and placed on passage Wednesday. Two years ago some of the Republicans bolted the caucus but there will hardly be anything of that kind this time. The bill was drawn up by Frank L. Littleton, of this city, who was speaker of the house in 1897, and who has attempted to avoid the features that made the reapportionment two years ago unconstitutional. It will give the Republicans a few more members than they had in the sessions prior to the landslide which gave them their present overwhelming majority.

A feature of the session today was the introduction of the general appropriations bill by Chairman Sayre, of the ways and means committee who will have charge of it on the floor of the house.

The passage of the Guirl anti-trust bill by the house by an almost unanimous vote has greatly alarmed the capitalistic classes and an organized attempt will be made to defeat it before the senate. It was explained to the house by Representative Guirl, who introduced the bill that it follows closely the provisions of the Sherman anti-trust law, but it is said to be more stringent than the latter. It gives state and county officials sweeping powers to investigate the business of any corporation which it suspected of attempting to restrain or monopolize trade in its particular line. The bill is so drastic that the corporations had no idea it would pass either branch of the legislature. Representative Condo, of Marion, made a vigorous protest against it, but his motion to indefinitely postpone was snowed under by an avalanche of negative votes.

The fact that but ten members voted against the bill is regarded as evidence of the tendency of this legislature to enact drastic laws for the regulation of the business of corporations.

A bill similar to the one passed by the house was introduced several days ago in the senate and referred to the committee of which Senator Will Wood is chairman. Senator Wood is against it and has not reported it. The advocates of the house bill will ask Lieut. Gov. Miller to refer it to another committee that will report it favorably immediately.

In order to make sure of the constitutionality of the Indianapolis track elevation bill, the one introduced in the house was passed by it under suspension of rules. The question has been raised as to whether or not the bill should have originated in the house or senate. The one placed on final passage Saturday originated in the senate.

The railroads received another black eye when the house unanimously passed the Ft. Wayne track elevation bill which was introduced and put through the senate by Senator Ulrey. A letter was read to the house from the widow of Oliver P. Morton thanking the general assembly for appropriating \$35,000 for a monument in his memory.

The Roemer divorce bill which passed the senate was amended so that proof of residence shall be made by two residents of the state instead of county.

### A GREAT DOCK FIRE

Blaze on New Orleans River Front  
Destroys Millions.

New Orleans, Feb. 27.—Fire involving millions of dollars' loss in physical property, and that strikes a serious, if temporary, blow at the immense export trade of New Orleans, swept the river front last night and wiped out the vast freight terminals of the Illinois Central, known as the Stuyvesant docks. Nearly a dozen squares of modern wharves and freight sheds, two magnificent grain elevators, hundreds of loaded cars and vast quantities of freight, including 20,000 bales of cotton, were destroyed, together with a large number of small residences. Actual estimates of the losses are impossible today, though they may exceed \$5,000,000.

The Stuyvesant docks extend from Louisiana avenue almost to Napoleon avenue, a distance of twelve squares. The wharves between those two points were covered with miles of track and steel and iron sheds ran the whole distance. The two grain elevators were of the most modern construction, the upper one having a capacity of a million bushels.

Thousands of bales of cotton, several hundred thousand packages of sugar, great quantities of cottonseed oil and on cake, lumber and every conceivable variety of freight filled the warehouses and sheds. The fire was said to have resulted from a journal that had not been sufficiently oiled. The whole plant was equipped with gigantic water tanks and fire extinguishing apparatus, but the blaze, small at the beginning, almost instantly got beyond control, communicating through the conveyors to the lower elevator and some of the sheds. In half an hour the fire covered two squares and was sweeping with irresistible fury both up and down the river.

### GUARDING POLICEMEN

In Warsaw a Singular Precaution Is  
Necessary.

Warsaw, Feb. 27.—Every policeman on duty here is accompanied by a soldier. The authorities, fearing a strike by the police, adopted this precaution so that in the event of an officer leaving his post it would not be unprotected. The measure is further intended to guard policemen from possible attack by strikers.

The police demand \$12.50 a month, the same scale that is paid in St. Petersburg. The present pay here is \$6 a month. The private coachmen and livery stable men here struck Sunday. The strike of street railway employees continues.

Some 15,000 strikers from the big iron mills returned to work today, all their demands having been granted. These include a nine-hour day instead of 10½ hours and an increase in wages of from 5 to 25 per cent.

### A Difficult Question.

St. Petersburg, Feb. 27.—The question of convoking the zemsky sobor is apparently not yet settled. Some of the emperor's advisers are urging the idea that to summon the land parliament at this time would be fatal to the autocracy, but that as a preliminary step toward a representative assembly, it might be well to invite representatives of the people to sit in the council of the empire, a purely consultative assembly with existing conservative elements as a balance wheel.

London, Feb. 27.—Sir Henry Irving continues to improve.

## IN THE LAST WEEK

The 58th Congress Has About  
Exhausted Its Lease  
on Life.

### SENATE AWAY BEHIND

It Will Require Long Sessions For  
the Upper House to Transact the  
Business Required of It.

Voting on the Swayne Impeachment  
Trial Engages Senatorial Attention Today.

Washington, Feb. 27.—At the beginning of the last week of the present session only one of the regular appropriation bills has been finally acted on by congress and approved by the president. This is the legislative, executive and judicial bill. Six other supply bills have passed both houses and are in conference. With only five days of the session left, the senate still has seven of the most important appropriation bills to consider in whole or in part. Of the seven the naval and the Indian bills have been partly read and some features of the naval bill have been discussed. Senators generally appreciate that the task of completing consideration of all these measures before the close of the session at 12 o'clock next Saturday is gigantic, but none of them doubts that it will be accomplished. In order to do all that is requisite it will be necessary greatly to prolong the daily sittings, and it is the present expectation that the hour of convening each day will be fixed at 10 o'clock and that the daily sessions will be extended considerably beyond the usual hour of adjourning. All night sessions are probable the last few days of the week.

Voting on the Swayne impeachment trial is in progress today. A separate vote is being taken on each of the impeachment articles, and on every vote each senator will be expected to rise formally in his place and say whether he considers Judge Swayne guilty or not guilty. A two-thirds vote will be necessary to impeach on any one of the charges.

As soon as the Swayne case is disposed of, the naval appropriation bill will be taken up, and that will be followed by the Indian, the postoffice and the pension appropriation bills in the order named. Considerable debate on the postoffice and Indian appropriation bills is expected, as there will be also on the sundry civil and river and harbor bills, which will be closed in the very last days of the session.

It is expected that the conference report on the Panama canal zone government bill will cause more or less discussion, and such is quite certain to be the case with reference to the conference report on the joint statehood bill, if one should be made.

### IN THE HOUSE

There Will Be Little Difficulty In  
Closing Out the Business.

Washington, Feb. 27.—The house enters on the last week of the 58th congress without indication of serious difficulty in completing the legislative program. Speaker Cannon predicts that unless the temper of the body becomes ruffled there need be no protracted night sessions. However, tradition foretells the usual all-night sessions which usher in the last day of the congress. This session, which is broken up by recesses in which conference committees prepare their final reports, is marked by levity and song.

The week began with the sundry civil bill as the top of legislation. The general deficiency bill, the last of the supply measures, is nearly ready for consideration. Conference reports to be handled include the statehood bill, the Panama canal legislation, and the appropriation bill still unfinished, in all of which there are differences between the two houses.

### ANOTHER MINE EXPLOSION

This Time There Are a Score of Victims at Bluefields.

Bluefield, W. Va., Feb. 27.—As a result of an explosion in shaft No. 1 of the United States Coal and Coke company at Wilcox Sunday, twenty-three miners are supposed to have lost their lives, and it is possible that the number will exceed this. Thus far fifteen dead bodies have been taken from the shaft. A large rescuing party is in the mines and it is barely possible that some of the remaining entombed miners will be rescued alive. The explosion was of terrific force and shattered glass windows a mile distant. The dead thus far recovered are Italians and Hungarians and have not as yet been identified. The company usually works in this shaft about seventy-five men.

### Bodies Covered by Water.

Birmingham, Ala., Feb. 27.—The rescuers at work in the Virginia mine have recovered the bodies of two more victims of last Monday's disastrous explosion, which makes the total number recovered up to this time 103. It is believed five more bodies are under the water, which has risen continuously in the mine.

BRITONS WELL PLEASED

Commissioner Upholds Their Contention in Dogger Bank Affair.

London, Feb. 27.—The publication of the decision of the international commission of inquiry into the North Sea incident has caused a feeling of relief and sincere pleasure among all classes. On the main point at issue the British contention is upheld. That is, that the fishing fleet committed no hostile act; that there were no torpedo boats among or in the vicinity of the fighting fleet and that there was no justification for the order of Roj-

ADMIRAL FOURNIER.

[President of the international commission.]

estvensky to open fire. The British public is not prepared to coincide with the commission's findings that the Russian admiral was justified in proceeding without assisting the damaged trawlers or that he did all he could to prevent the trawlers from being the object of fire by the Russian squadron, and it is believed the facts would have justified a much more severe finding than regrets that Rojstvensky did not inform the British government of his action.

A Russian View.

Paris, Feb. 27.—Dr. Mandelstamm, one of the Russian counsel during the North sea inquiry, writes as follows: "Regarded from the viewpoint of humanity alone, the commission's work has immense importance. The admirals' report is the result of common efforts and mutual concessions to save mankind from the horrors of a general conflagration. The names of the rulers and ministers who brought it about and of the commissioners who weighed the evidence deserve entry in the golden book."

The Situation at the Front.

Mukden, Feb. 27.—Fighting continues in front and west of Tie pass. On the extreme east the Japanese have taken the outlying positions and they now threaten the main defense. Owing to their formidable attack it is thought that the Japanese artillerymen are veterans from Port Arthur, commanded by General Nogi. Forty wounded Russians arrived at Mukden Sunday and 400 are expected today. Other indications point to an unusual struggle.

Paroled Russian Officers.

New York, Feb. 27.—Thirteen officers of the Russian navy who were taken prisoners at Port Arthur and paroled, arrived here Sunday from Chicago, on their way to St. Petersburg. Later the party left for Washington to pay their respects to the Russian ambassador. They will leave here on Thursday for Paris and thence to St. Petersburg.

Stoessel Nearing Home.

Moscow, Feb. 27.—General Stoessel, late commander of the Russian forces at Port Arthur, and his party arrived here at 9 o'clock Sunday morning. Numerous bouquets were presented to Mme. Stoessel. The general afterward held a reception. He will go to St. Petersburg on Wednesday.

Bomb Found at the Elyses

Paris, Feb. 27.—The bomb placed against the wall of the Elysee, the presidential residence, was found to contain revolver cartridges mixed with nails. Imperfect construction prevented an explosion. The police are religiously hiding the details.

Election Frauds Punished.

Denver, Col., Feb. 27.—Jas. Walsh, W. P. Condon and Fred M. Johnson, election officers, were found guilty of frauds committed at the city charter election last spring and were sentenced to jail for six months.

Thought It Wasn't Loaded.

Ardmore, I. T., Feb. 27.—Miss Besie Irby, the eighteen-year-old daughter of Marshal J. P. Irby, accidentally shot and killed Clarence Morgan, her sweetheart. They were playing with a gun which was supposed to be unloaded. The bullet entered Morgan's cheek and he died instantly.

Life Savers Lose Lives.

London, Feb. 27.—A heavy gale prevailed off the British coasts Sunday, resulting in several casualties. A boat put off from Holyhead in response to signals of distress, but was capsized and five of her crew were drowned.

Russians Turned Back.

Tokio, Feb. 27.—Manchurian army headquarters reports that two infantry attacks by the Russians in the neighborhood of Maiton mountain Friday night were repulsed.

How to Clean Wall Paper.

A simple way to clean the wall paper of an apartment which has become dirty is to lightly wipe it down with old flannel; new flannel will not do. If the paper is not stained, but only dirty, this method will serve the purpose without further labor.

**AMUSEMENTS**

Dan Darleigh, in the rural comedy "Old Si Stebbins," to be seen at the city opera house, Wednesday night, will be a delicious delight to the audience, as he is a darling and no mistake, when acting the exponent of hoe and rake. As a Hoosier hayseed he is a laugh contagion breeder. The fact of the matter is Darleigh's is a typical farmer's phiz, and the way he does act, gee whizz; no wonder he does a big box biz.

**BY THE WAYSIDE**

An editor sums the matrimonial question as follows: Two women start out to win a man. Each entered the race with a different plan.
